

Northside Veterinary Hospital Boarding Release

Pet(s) _____ Owner: _____

- You will be charged for each night of your reservation. If prior arrangements are made, pets may be picked up early, but only during office hours.
- All vaccinations must be current:
Dogs: Distemper, Parvovirus, Coronavirus, Rabies and Bordetella
Cats: Distemper, Rhinotracheitis and Rabies

Note: If vaccinations are done elsewhere, proof of these vaccinations must be brought with you at the time of drop off. Your pet will receive these vaccinations if proof is not available.

- All incoming pets will be checked for fleas and ticks. If external parasites are found, your pet will be treated at an additional cost to you.
- All pets that are picked up after 11:00 a.m. will receive a complimentary bath. All others will be accommodated to the best of our ability.
- We must be notified if your pet is known to be destructive so we can make special accommodations. If we are not notified, and the pet destroys the kennel or materials, the owner will be billed for damages.
- Personal belongings may be brought with your pet, but Northside is not responsible for loss or destruction.
- All pets boarding will be given a Capstar pill before they leave. This is given orally to kill fleas and lasts for 24 hours. This is to insure that no fleas will accidentally travel home with you. There will be a \$6.00 charge added to your bill per pet.
- If medications need to be administered, additional charges may apply.
- Northside will treat your pet for any illness which may occur while boarding. Every attempt will be made to notify you, but any additional medications and/or tests considered necessary, will be added to your bill.
